2. Once you use this product, you are deemed to have read the disclaimer and warning carefully, understand and acknowledge all the terms and contents of this statemen and promise to take full responsibility for the use of this product and possible

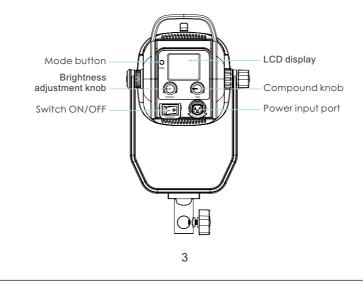

**3.** Design and specifications are subject to change without notice.

## **PRODUC** PARAMETE

- Brand : GVM
- Product model : GVM-PR150R
- Product Name : Photography lights
- Product Type : Photography Fill Light
- Functions/features: APP (Bluetooth connection), new LCD screen,
- joint control, high display COB lamp beads, multi-scene mode
- Lamp beads quantity : COB\*1
- ◆ Color rendering index : ≥97
- HUE : 0°~360°
- SAT : 0%~100%
- Color temperature : 2700K~7500K
- Lumen : 5440lux/1m
- Light adjustment method : Stepless adjustment
- Power :150W
- Voltage : AC 100-240V
- Power supply mode : DC input
- Cooling : Fan forced cooling
- Product Weight : 1.5 KG
- Product Size (mm) :220\*160\*290
- Product material : Aluminum alloy + plastic
- Commodity origin : Huizhou, China

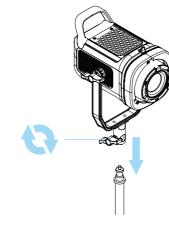

### **PRODUCT STRUCTURE ANALYSI**

# **INSTALLATION METHOD**

1 The light can be installed and fixed on the bracket by rotating the knob clockwise, and unloaded by rotating in the counterclockwise direction.

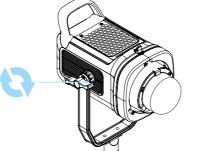

2 Insert the bayonet of the diffuser into the bayonet of the lamp, and then turn it slightly clockwise.

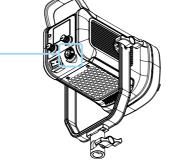

### 3 Loosen the angle fixing handle, adjust the angle of the spotlight that you need, and then turn the angle fixing handle tightly.

4 Connect the power cord to charge.

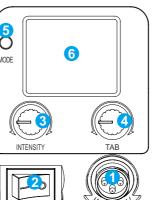

## **DESCRIPTION OF PRODUCT CONTROL KEYS**

- 2 Switch ON/OFF Brightness adjustment knob: Rotate the knob to adjust the brightness
- 4 Compound knob: Long press 2 seconds to switch the light mode(CCT/HSI/SCENE). short press can switch to the parameter to be adjusted, turn the knob to adjust the lighting parameter.
- 5 Mode button: switch control mode (Rotate/Master/Slave/APP)
- 6 LCD display: available to display the current mode and parameters of the lamp

# FUNCTION INSTRUCTION 8 **INSTRUCTION FOR USE**

Display the current brightness, control mode, light mode, light parameters, sce number, and channel value of the light.

### 2 Mode types and functions:

Press mode button to switch the control mode, including Rotate, Master, Slave, APP mode

Rotate mode: Through the knob to adjust the brightness, color temperature and select the scene.

Master mode: Through the knob to adjust the brightness, color temperature channel and select the scene. The slaves of the same channel will also be controlled synchronously.

Slave mode: Adjust the channel through the composite knob. When the channel of the slave and the master are the same, they can be controlled by the master synchronously.

APP mode: The channel can only be adjusted through the composite knob, a the light can be adjusted through the APP.

#### 3 Adjust brightness (BRG): Range 0%~100%

- Master mode / Rotate Mode: Turn the brightness adjustment knob to ad the brightness.
- APP mode: Connect to the APP and adjust the brightness through the AF

#### Adjustable color temperature (CCT): Range 2700K~7500

- In Master/Rotate mode, long press the composite knob for 2 seconds switch the lighting mode to CCT $\rightarrow$  Rotate the composite knob to adjust color temperature.
- APP mode, connect to the APP and adjust the color temperature through

#### Adjust HUE: Range 0°~360°

 Master mode / Rotate mode, Long press the composite knob for 2 seconds switch the light mode to HSI  $\rightarrow$  Short press the composite knob to switch  $HUE \rightarrow rotate$  the composite knob to adjust HUE.

APP mode, connect to the APP and adjust the HUE through the APP

#### 6 Adjust SAT: Range 0%~100%

SAT  $\rightarrow$  rotate the composite knob to adjust SAT. • APP mode: connect to the APP and adjust the SAT through the APP

#### Adjust CH: Range 1~12

the APP.

#### Adjust scene (SC):

5 Bad Bulb, 6 Party, 7 Disco, 8 Paparazzi Long press to switch light mode to SCENE  $\rightarrow$  short press the button TAB to color temperature, time parameter, etc

#### APP Control:

Switch the photography light to the APP mode, open APP GVM LED, after registering and logging in, it will enter the Bluetooth search interface, find the Bluetooth Name "BT\_ LED" and then connect it, waiting for connecting. After success, you can control the light by APP.

### 1 Master & Slave control mode: Joint control between lamps

brightness, color temperature through the master light. • You can also use APP to connect to the master, and control the slave throug the APP.

 Master mode / Rotate mode: Long press the composite knob for 2 seconds switch the light mode to  $HSI \rightarrow Short$  press the composite knob to switch to

In Master/Rotate mode, rotate the compound knob to adjust the channel • In APP mode, connect to the APP and set the value of the channel through

- There are 8 scenes in scene mode: 1 Lightning, 2 Cop Car, 3 Candle, 4 TV
- switch  $\rightarrow$  rotate the button can choose scene mode and adjust brightness,
- In APP mode, connect to the APP and adjust the scene lighting through the APF

• Prepare two or more photography lights, set one to Master mode, and the others to Slave mode, and set the same channel (CH) of the master and slave photography lights. Then it can be synchronously controlled the

# **APP CONTROL**

#### n the QR code on the back of t

Turn on the video light and set the mode to APP mode. Open the "GVM\_LED" application software on the phone ( The phone needs to turn on Bluetooth and GPS), then enter the register and log in interface  $\rightarrow$  enter Bluetooth's search interface  $\rightarrow$  Find the Bluetooth named "BT\_LED" and connect  $\rightarrow$  Wait for connection  $\rightarrow$  After connect success, it will automatically enter the app's control interface. At this time, the video light can be control by the APP.

You can save 6 custom light effects in "My Scenes". After setting the light effect parameters  $\rightarrow$  click the " $\square$ " icon in the right corner – pop up the "Save Current Scenes"  $\rightarrow$  click "OK". The light effect can be found in "My Scenes" at this time.

If there is a slave, the APP will synchronously control the slave of the same channel as the connected APP mode machine.

# SIMPIE FAULTS AND TROUBLESHOOTIN

Phenomenon	Check the product	Solution
The switch indicator does not light up	Whether the connection between the lamp and the power supply is normal.	Make sure the adapter is well contacted with the power plug.
The product is in the "ON" state, the display and lights are not on	Check if the product is "turned off" by the APP.	Press the "ON/OFF" button once again.
APP can't connect / can't control	Check whether the device is in APP mode and whether "BT_LED" is displayed on the APP.	Normal steps: ① Switch to APP mode after booting; ② Turn on Bluetooth and GPS on the phone; ③ Open the APP, search and connect to Bluetooth BT_LED.

# PRECAUTIONS

- The video light is not waterproof, please use it in a rain-proof environment.
- 2) The video light is not anti-corrosion, please don't let the light come into contact with any corrosive liquid.
- 3 When you use the light, make sure that the light is placed firmly to prevent the it from falling and being damaged.
- When the light is not used for a long time, please turn off the power of it to save energy consumption.

# **USE AND PRESERVATION**

Do not put the light in a highly humid, strong electromagnetic field, direct sunlight, high-temperature environment. If the light is not use for a long time, please disconnect the power.

Clean: Before cleaning, please unplug the power plug. And use wet cloth rather than any detergent or soluble liquid, avoiding damaging the surface layer

**Power:** Make sure the power is in the demanded range, not too high or too low. Correctly load the battery, in order not the damage to the machine.

Repairing: If there is fault or performance degradation, do not unpack the shell by yourself, avoiding damage to the machine and lose the right of maintenance. When there is a fault, do not hesitate to contact us, and we will do our best to deal with the problem.

Accessories: Please use the accessories provided by the manufacturer and approved ones In order to maximize the performance.

Guarantee: Do does not modify the product, or you will lose the right of maintenance.
