PRODUCT INTRODUCTION

Welcome to "GVM-8RS". This product is specially designed for senior photography enthusiasts. The product is suitable for live / outdoor / studio photography, and also for YouTube video shooting.

The main features of the product are:

① Infinitely adjustable RGB color and dual color temperature characteristics, brightness / color temperature / RGB hue / color purity. It can be controlled at will, the color temperature range is 2700~7500K. Having 60 LED beads help to restore and enrich the colors of objects, to provide you with natural and vivid shooting effects.

② With electronic display and stable system. Small size and light weight, it can be hand-held to customize control to fill light, and it is easy to carry. Let you shoot the results you want easily.

③ 8 kinds of scene lights can be simulated: lightning, police car, candlelight, TV, broken light bulb, party, Disco, paparazzi.

We believe that once using our product correctly, you can make huge progress when shooting. Before using the product, you are strongly recommended to read the instructions below carefully.
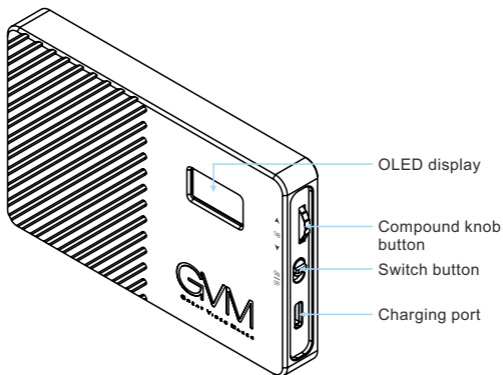

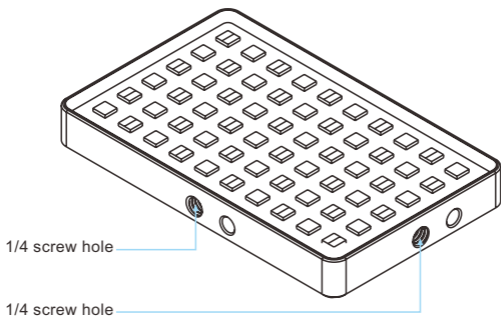

DISCLAIMERS

2. Once you use this product, you are deemed to have read the disclaimer and warning carefully, understand and acknowledge all the terms and contents of this statement, and promise to take full responsibility for the use of this product and possible consequences.

PRODUCT PARAMETER

◆ Brand: GVM

◆ Product Name: Photography Light

◆ Product model: GVM-8RS

◆ Product Type: Photography fill light

◆ Number of lamp beads: 60

◆ Product net weight: 160g

◆ Product size (mm): 116*72*16mm

◆ Heat dissipation: self-heating

◆ Product material: aluminum alloy

◆ Function/Features: High CRI, RGB light, Aluminum alloy shell, scene light

◆ Color rendering index: ≥97

◆ Color temperature: 2700~7500K

◆ Brightness: 1060lux/0.5m, 225lux/1m

◆ HUE: 0°~360°

◆ SAT: 0%~100%

◆ Light adjustment method: stepless dimming

◆ Power: 8W

◆ Charging voltage: DC 5V

◆ Charging cable: Type-c charging cable (standard)

◆ Charger: None

◆ Place of Origin: China. Huizhou

INSTALLATION METHOD

1 Fully charge the lamp firstly (charger current>2A), and the screen can display the battery level after power on.

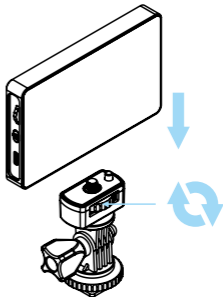

OLED display

Switch button

Charging port
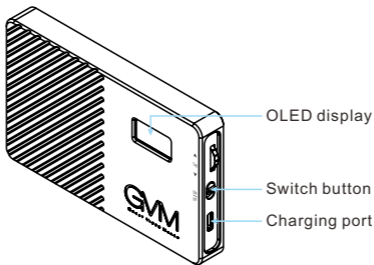

2 You can choose to install the supplied hot shoe bracket or small pan-tilt according to your needs. The installation steps are as follows:
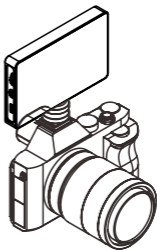

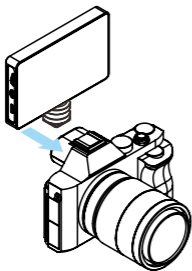

Hot shoe bracket installation steps
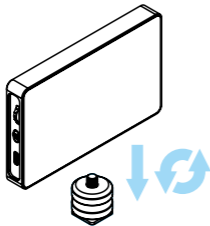

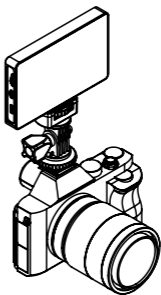

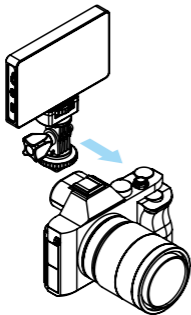

small pan-tilt installation steps

③ Install it on the camera as shown below

Hot shoe bracket installation steps

Small pan-tilt installation steps

④ Loosen the angle locking knob of the small pan-tilt, you can adjust the angle of the small pan-tilt, and tighten the angle locking knob after adjusting the angle.
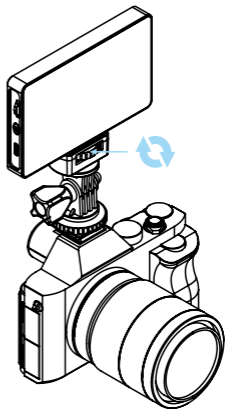

DESCRIPTION OF
PRODUCT CONTROL KEYS
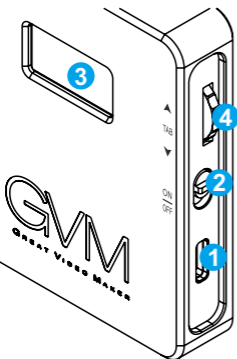

① Charging port: connect the charging cable to charge the lamp

② Switch button: dial up to turn on, dial down to turn off

③ Electronic display: display the current information of the photography light.

④ Compound knob: Long press this knob to switch the light mode;short press this knob to select the light parameter;turn this knob to adjust the currently selected light parameter.

FUNCTION & INSTRUCTION FOR USING

① Mode selection:

Long press the compound knob to switch modes. Modes include: CCT, HSI, SCENE

CCT(dual color temperature mode): Adjustable brightness, color temperature

HSI(RGB color light mode): Adjustable brightness, hue, color purity

SCENE(scene light mode): Adjustable scene light, there are 8 kinds of scene light: Lightning, Cop Car, Candle, TV, Bad Bulb, Party, Disco, Paparazzi.

② Adjust brightness (BRG): Range 0%~100%

There is brightness adjustment in any mode. Long press the compound knob button to switch to the desired mode → short press the compound knob button to select BRG → turn the compound knob button to adjust the brightness.

③ Adjust color temperature (CCT): Range 2700~7500K

Long press the composite knob button to switch to CCT mode → short press the composite knob button to select CCT → turn the composite knob button to adjust the color temperature.

④ Adjust hue (HUE): Range 0°~360°

Long press the compound knob button to switch to HSI mode → short press the compound knob button to select HUE → turn the compound knob button to adjust the hue.

⑤ Adjustable color purity (SAT): Range 0%~100%

Long press the composite knob to switch to HSI mode → short press the composite knob to select SAT → turn the composite knob to adjust the color purity.

⑥ Adjust the scene mode (SCENE):

Long press the compound knob button to switch to SCENE mode → short press the compound knob button to select MOD → turn the compound knob button to switch scenes → short press the compound knob button to select the parameter to be adjusted → rotate the compound knob button to adjust the currently selected parameter.
